- Secured SSIP 2.0 funding (of ₹ 88,200/-) from Govt. for our startup Project

CERTIFICATION

- **Azure Fundamentals**
Microsoft
JUN 2023

ABOUT

- I am Akash Parmar, a Computer Engineering student at LDCE, Ahmedabad.
- I excel in backend development and have a natural talent for front-end design and development. My expertise includes languages like C, C++, Javascript, and Python, along with frameworks like ReactJS, NextJS, NodeJS, Svelte, and SolidJS. Additionally, I'm well-versed in technologies like Webpack, Firebase, Supabase, and Auth0. I have a strong track record of successful projects in these areas.

PROJECT

- **Bi-Direct**
link: <https://devfolio.co/projects/bidirect-f15f>
Bi-Direct is a middleware that power bi-directional integration between two separate systems supporting REST, SOAP, or GraphQL communication with compatibility between them. It can be used as an API.
 - Tech Stack : NodeJS, Express, GraphQL, SOAP
- **gpt2pdf**
link: <https://www.akashparmar.me/projects>
The gpt2pdf extension allows you to easily convert conversations with ChatGPT to PDF files. With just a click, you can save your conversations for later reference, sharing, or printing.
 - Tech Stack: Javascript, Webpack, Extension dev-tools
- **E Commerce Shop**
link: <https://amazonweb-tawny.vercel.app/>
I tried to replicate amazon's website to learn full stack development.
 - Tech Stack: ReactJS, NodeJS, ExpressJS, MongoDB
- **Other Projects**
link: <https://www.akashparmar.me/projects>
I have built many projects using MERN stack, have few projects even on ML and AI, you can find them on my portfolio or my github.

SKILLS

- Languages: C, C++, Javascript, Python, C# (Unity 3D), SQL
- Technologies: React, Node, Next, Express, Svelte, SolidJS, Redux (RTK), GraphQL
- Other tools: Firebase, Supabase, Auth0
